SHOES&HANDBAGS

- Made in Italy shoes and handbags will also be a category that we are looking for. Regardless of style and attitude; we would be interested in any shoe brand with good quality and reasonable price range.
- Smaller manufacturers who produce for other designer brands could also be an option.
- When it comes to handbags; if there are any up&coming brands who can replace brands like Furla and Coccinelli in future, we would be interested checking them as well.

ACCESORIES

- Accesories are an important category for Beymen. While we stock fine jewellery from local brands; costume jewellery, scarfs, headbands, gloves, hats and other type of garment accesories are usually imported.
